

# Laxapet

Laxapet is an effective laxative especially formulated for cats and dogs. It is a highly palatable malt-based gel which provides supplemental vitamins, fish oil and lecithin. Cats and dogs find its taste almost irresistible.

-Laxapet softens the stools and lubricates the contents of the alimentary canal.

## Indications

-For the prevention and treatment of hairball impaction in cats.

-As a laxative for dogs and cats.

## Composition:

Each 5g of Laxapet contains petrolatum BP 2g, lecithin 250mg, fish liver oil 65mg, vitamin A 800i.u., thiamine HCl 0,25mg, riboflavin 0,15mg, pyridoxine HCl 0,2mg, yancobalamin 0,5mcg. Preservatives: sodium benzoate, BHA.

**Packing:50g tube**

## Directions For Use

Cats: 5- $\frac{1}{2}$ g ( $\frac{1}{2}$ 1- medicine measure) daily for two to three days, then 2- $\frac{1}{2}$ g ( $\frac{1}{4}$ - $\frac{1}{2}$  medicine measure) three times a week. For cats Laxapet can be placed directly onto nose, tongue or front paw – it will be readily licked off.

Dogs: 10-5g (2-1 medicine measures) daily for two to three days. For dogs Laxapet can be administered directly into the mouth or mixed into food. Repeat when necessary.
