

# JOSERA BALANCE

For our seniors: A special food designed to boost vitality, even in old age. The reduced protein and fat content helps to ease strain on the metabolism. The balanced and extremely well-tolerated formula containing valuable antioxidants helps to counteract cell-aging. It is therefore highly suitable for older dogs. Also suitable for over-weight dogs and helps protect the heart.

For older and less active dogs with a lower energy requirement.

Low-fat recipe to prevent obesity.

The low-fat content and L-carnitine encourage an optimal ratio of fatty tissue and muscle mass.

Together with taurine, L-carnitine also supports cardiovascular functions.

Complete feed for adult dogs.

## BALANCE

**Fat- and protein-reduced, moderate level of minerals**

For our seniors: A special food designed to boost vitality, even in old age. The reduced protein and fat content helps to ease strain on the metabolism. The balanced and extremely well-tolerated formula containing valuable antioxidants helps to counteract cell-aging. It is therefore highly suitable for older dogs.

- For older and less active dogs with a lower energy requirement
- Low-fat recipe to prevent obesity
- The low fat content and L-carnitine encourage an optimal ratio of fatty tissue and muscle mass
- Together with taurine, L-carnitine also supports cardiovascular functions

### Weight control

Thanks to an especially fat-reduced formula and the presence of L-carnitine, this constitutes the ideal food for less active and/or elderly dogs.

### Protein-reduced

This formula has a reduced amount of protein and can therefore lighten the burden for the dog's metabolism and for its vital organs.

### A healthy heart

L-carnitine and taurine support cardiovascular functions.
