

Josera Junior

A specifically adapted calcium/phosphorus ratio makes JosiDog Junior suitable for all young dogs from the age of eight weeks onwards up to adulthood. The gluten-free formula with adjusted energy content supports moderate growth rates and strong bones needed for puppies.

Complete feed for growing dogs.

Composition:

whole grain corn; dried poultry protein; rice; poultry fat; beet fibre; hydrolysed poultry protein; minerals; ground chicory root (natural source of inulin); dried meat from the New Zealand green-lipped mussel (*Perna canaliculus*).

Packaging size: 18 kg

* The recommended amount of food is per puppy per day. The specified amounts of feed depend on the weight of the adult dog. In case of growing dogs, an optimal growth rate should be sought by a moderate energy intake. If your dog is too big and too heavy for his age, it is recommended to reduce the amount of food. A sufficient nutrient supply is ensured even with smaller ration sizes.
