

BAVARO Work

For Performance & activity

Complete feed for adult dogs.

The energy and protein content of BAVARO Work is tailored to working dogs facing constant demands.

Composition:

meat and animal by-products, cereals, vegetable by-products; oils and fats; minerals.

Packaging size: 18 kg

ANALYTICAL CONSTITUENTS:

Protein	26%
Fat content	12%
Crude fibre	2.3%
Crude ash	8.0%
Calcium	1.9%
Phosphorus	1.4%
Metabolisable energy*	MJ/kg15.25
Metabolisable energy*	kcal/kg3646

BAVARO Work

NUTRITIONAL ADDITIVES PER KG:

Vitamin A	I.U.13000
Vitamin D3	I.U.1300
Vitamin E	mg90
Iron (ferrous sulfate, monohydrate)	mg135
Zinc (zinc chelate of glycine, hydrate)	mg120
Manganese (manganese-(II)-oxide)	mg12
Copper (cupric chelate of glycine, hydrate)	mg16
Iodine (calcium iodate, anhydrous)	mg1.5
Selenium (sodium selenite)	mg0.2
* National Research Council (NRC)	2006

COMPARATIVE ANALYSIS OF THE ESSENTIAL CONSTITUENTS

■ Protein (%) ■ Fat content (%)

THESE THINGS ARE IMPORTANT TO US:

- We use neither soy products nor sugar
- The use of genetically modified raw materials is out of the question
- Drying is the only preservation method we use for our dogfood
- Taste and colour come only from the raw materials, not from any artificial additives

ABOUT US

In Germany, people call the part of Bavaria where our factory is located the "tip of the lion's tail". The lion is the animal on the Bavarian coat of arms. Our BAVARO dogfood is strong like a lion. It was developed specifically for all working canines: hunting, herding, guard and guide dogs.

The people who live and work in our region are down to earth and reliable. Reliable quality is also something that sets our BAVARO dogfood apart. Our team's experience, accumulated over several decades, is a clear advantage for our customers. "Made in Bavaria, Germany": this also means for us that we work primarily with suppliers from our home region.
