

# Sebbarox

## Description

Sebbarox is a medicated shampoo for use on dogs, cats and horses. It is indicated for the treatment of various skin conditions, e.g. fleabite allergies, pyoderma, hotspots, hyperkeratosis and canine acne.

## COMPOSITION

Benzoyl Peroxide %2.5, Precipitated Sulphur %2 in a specially formulated conditioning base.

**Packaging : 250ml**

## DIRECTIONS FOR USE

Shake well before use. Wet the coat thoroughly. Apply shampoo to one affected area and lather well. Take care to avoid eyes. Don't rinse off the lather but leave it on the animal. Progress to the next affected area. Repeat until the entire body has been treated and leave the shampoo lather on for 5 minutes or longer if possible. Then rinse all the lather off. May be repeated daily or weekly.

### Note:

Users are cautioned to avoid eyes and mucous membranes. Benzoyl peroxide may bleach clothing.

### Warnings

Keep out of reach of children. Rarely, benzoyl peroxide may give rise to an allergic reaction with itching and redness. If this occurs, rinse thoroughly and discontinue use of the product. Although this remedy has been tested under a large variety of conditions failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek veterinary advice.
