

Swimmer's Solution

Description

Swimmer's Solution is a hydro-alcoholic dilute solution of acetic acid, especially formulated for dog's ears.

Dogs that:

are often in water (like Labradors),
are bathed frequently,

live in humid parts of the country or

have "floppy" ears are predisposed to ear problems.

Yeasts, which thrive in dark, moist conditions are the most frequent causative micro-organism for these ear problems.

Packing: 30ml dropper bottles

CANINE
BIOSCIENCES LTD

Swimmer's Solution

Indications

Swimmer's Solution, which lowers the pH and dries and disinfects the ear canal, drastically alters the ear canal environment and renders it hostile to growth of micro-organisms.

Directions for Use

To prevent soiling, apply the drops outdoors or under controlled conditions. Place 10-5 drops in the ear canal, massage, and allow the dog to shake the excess solution out.
