

Shoo Fly Liquid

Description

Kyron's Shoo-Fly® Range

Because animals cannot fend off flies like humans do, they need all the help they can get.

Prevent flies from infecting your animal with various diseases.

Stop flies from being a nuisance to your animal and yourself

Repels flies, ticks, fleas, midges and mosquitoes

SHOO-FLY[®] Repellent Spray (dogs & equines)

A pleasant-smelling solution contains synergised pyrethroids as well as aromatic oils. This highly effective combination of ingredients provides immediate relief and long-lasting protection against all flies. Available in 250ml pump-spray bottle for dogs.

SHOO-FLY[®] Ointment (dogs)

A fly repellent in an ointment base formulated against biting flies. It also contains a sunscreen to protect delicate skin and ear-tips from damage by the sun. The ointment is in the form of a cosmetic base, which is easy to apply, and does not leave a tacky residue on the ears. Available in a 50g tube.
