

# KITTEN

KIBBLE

87% ANIMAL PROTEIN (AS A PROPORTION OF TOTAL PROTEIN)

02/2023

| Analytical constituents per kg: |       |       |
|---------------------------------|-------|-------|
| protein                         | %     | 32.0  |
| fat content                     | %     | 18.0  |
| crude fibre                     | %     | 2.1   |
| crude ash                       | %     | 7.1   |
| calcium                         | %     | 1.45  |
| phosphorus                      | %     | 1.10  |
| magnesium                       | %     | 0.10  |
| taurine                         | mg/kg | 1,600 |
| metabolisable energy per kg     | MJ    | 16.6  |
| metabolisable energy per kg     | kcal  | 3,966 |

| Additives                     |         |        |
|-------------------------------|---------|--------|
| Nutritional additives per kg: |         |        |
| vitamin A                     | I.E./kg | 24,000 |
| vitamin D3                    | I.E./kg | 1,800  |
| vitamin E                     | mg/kg   | 220    |
| vitamin B1                    | mg/kg   | 15     |
| vitamin B2                    | mg/kg   | 20     |
| vitamin B6                    | mg/kg   | 20     |
| vitamin B12                   | mcg/kg  | 100    |

| Nutritional additives per kg:                          |        |       |
|--|--------|-------|
| calcium-D-pantothenate                                 | mg/kg  | 50    |
| niacin   | mg/kg  | 90    |
| folic acid   | mg/kg  | 5     |
| biotin   | mcg/kg | 1,000 |
| iron (iron(II) sulphate monohydrate)                   | mg/kg  | 200   |
| zinc (zinc chelate of glycine hydrate (solid))         | mg/kg  | 150   |
| manganese (manganese (II) oxide)                       | mg/kg  | 20    |
| copper (copper(II) chelate of glycine hydrate (solid)) | mg/kg  | 18    |
| iodine (calcium iodate, anhydrous)                     | mg/kg  | 2.00  |
| selenium (sodium selenite)                             | mg/kg  | 0.25  |

#### Technological additives:

Antioxidants: tocopherol extracts of natural origin.

**Complete feed for pregnant, nursing and growing cats.**

**Composition:** dried poultry protein; whole grain corn; barley; poultry fat; hydrolysed poultry protein; beet fibre; hydrolysed animal protein; 1.0% salmon oil; minerals

Available in: **650 g; 7 x 650 g; 10 kg**

#### Feeding recommendation:

| For kittens   |                               | For pregnant cats |                     |
|---------------|-------------------------------|-------------------|---------------------|
| Age in months | Feed amounts / kg body weight | Weight            | Feed amounts / 24 h |
| 2             | 55 g                          | 2 - 4 kg          | 50 - 100 g          |
| 3             | 50 g                          | 4 - 6 kg          | 100 - 150 g         |
| 4             | 45 g                          | 6 - 8 kg          | 150 - 190 g         |
| 5             | 40 g                          |                   |                     |
| 6             | 35 g                          |                   |                     |
| 7 - 12        | 25 - 30 g                     |                   |                     |

Salmon oil provides valuable omega-3-fatty acids which, along with essential trace elements and vitamins, support a shiny and silky coat.

Always provide your cat with fresh drinking water. The recommended feed quantities are given per animal per day.

**For pregnant cats:** please note that your cat's food requirements during pregnancy will depend on the number of kittens. Due to the possibility of birthing difficulties and disturbances, however, you should take care to avoid over-feeding during the lactation period.

**For lactating cats:** food should be made freely available as required, as the cat's needs will vary depending on the number of kittens and how much milk is being produced.
